

Download the App

Download the M1 App from the App Store or Google Play and install it on your smartphone. Follow the Tutorial on the App.

Connect the M1 to your Smartphone

Once you have installed the M1 App, follow the steps below to connect the M1 to your smartphone:

1. Connect to M1 Dash Cam using the Wi-Fi menu on your smartphone.
2. Find Wi-Fi SSID "Escort M1" and enter the password "12345678."
3. After your smartphone Wi-Fi is connected to the M1, the Escort M1 status LED turns green.

Troubleshooting

If your unit is not operating properly, please follow these troubleshooting steps:

- Make sure the power cord to the M1, as well as the pigtail cord from the M1 to the detector, are both properly connected.
- Make sure the socket of your vehicle's cigarette lighter is clean and free of corrosion.
- Make sure the power cord's adapter is firmly seated in your cigarette lighter, and the power LED is on.
- Make sure the micro SD memory card is properly inserted into the memory card slot.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

"This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body."

FCC ID:QKLSSM1

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

ESCORT[®] M1

DASH CAM

Radar/Laser Detector not included

QUICK START GUIDE
