

SPECIFICATION

1. NAME AND MODEL NO

The name of this production is **COMPACT FLUORESCEN LAMP.**

(COPACT LAMP)

Model no is as follow

9W – QL09SW

13W – QL13SW

23W - QL23SW

2. DESCRIPTION

This compact lamp is consisting of glass bulb, electronic ballast, PBT case, E27 base.

Also this compact lamp used E27 base for compatibility replace of incandescent lamp. And glass bulb is fill with argon GAS, which cathode is consist of tungsten coil type filaments. The wall of glass tube painted with fluorescent material. The electronic ballast is composed by several electronic parts, in other to current stability of lamp. This circuit operate self-oscillation function with aprox.70Khz frequency.

3.RATING

MODEL	QL09SW	QL13SW	QL23SW
RATING VOLTAGE	120VAC	120VAC	120VAC
FREQUENCY	60HZ	60HZ	60HZ
INPUT CURRENT	150mA	220mA	390mA
INPUT WATTAGE	9±1W	13±1W	23±1.5W
LAMP TYPE	SPIRAL	SPIRAL	SPIRAL
