Declaration on Model Differences

We,

REYAX TECHNOLOGY CO.,LTD.

Declare that the following product(s):

FCC ID: QLYRYRR20IV17

Product Name: RFID Module

Main Model: RYRR20I_DELTA_V17

Variant Model: RYRR20I_DELTA_V17A

IC ID: 31501-RYRR20IV17

PMN: RYRR20I_DELTA_V17 , RYRR20I_DELTA_V17A

HVIN: RYRR20I_DELTA_V17 , RYRR20I_DELTA_V17A

are electrically identical. Both models share the same circuit design, PCB layout, components, shielding, antenna design, and interface.

The difference between the two models is as follows: The model

RYRR20I_DELTA_V17A features an additional **conformal coating** applied for environmental protection (moisture resistance). We confirm that this coating material is non-conductive and does not impact the radio frequency (RF) performance or safety characteristics of the module.

Therefore, the test data gathered from the submitted test sample (Model: RYRR20I_DELTA_V17) remains valid and representative for the variant model RYRR20I_DELTA_V17A.

The manufacturer accepts full responsibility for the compliance of the above-mentioned products.
