Your inquiry has been submitted to the Laboratory Division of the FCC Office of Engineering and Technology. You will receive a response within two business days. Please be sure to retain the inquiry tracking number displayed for future reference and questions concerning the status of this inquiry.

Inquiry Tracking Number: 673878**Date of Submission: 04/12/2006**

Question: FCC, I am reviewing a Cell/PCS CDMA2000 1x clamshell handset with extending antenna. During testing the laboratory investigated the combinations of RC's and SO's to determine the worst case power (very little variance). I have reviewed this in accordance with the guides fro the 3G Roundtable presentation materials. Please provide any further guidance needed for TCB review. Best regards, Chris Harvey charvey@ieee.org 410-750-0860
