Equipment Authorization Branch
7435 Oakland Mills Road
Columbia, MD 21046

FCC ID: QNFT91-NA
Applicant: digades GmbH

Transceiver 1 and 2 are DTS devices, tested conform part 15.247. They will be used in a car as transceiver system. That is why they have one FCC ID only.

The receiver portions of both transceivers follow [part 15.101 \(b\)](#)...However, receivers indicated as being subject to Declaration of Conformity that are contained within a transceiver, the transmitter portion of which is subject to certification, **shall be authorized under the verification procedure....**

There gives no additional device as receiver only in this T91 NA system.

Thank you.

kind regards
