

RemoteTunes™ with Dock Connector

Targus®

Introduction

Congratulations on purchasing Targus RemoteTunes with Dock Connector. This device gives up to 150 feet wireless control of your iPod® within your home or on the go. The compact, lightweight remote design is perfect for mobile users. You can charge your iPod by using the dock connector so the iPod will never be low on battery.

List of Contents

- RemoteTunes Remote
- Receiver
- Belt Clip
- 3 foot RCA cable

Operating Instructions

iPod RF receiver setup:

Plug RemoteTunes into the dock connector located on the bottom of your iPod and WAIT 30 seconds. A self-diagnostic will automatically run and your wireless remote will be ready for operation once the process is complete. To sync or charge the iPod, simply plug your charging cable into the bottom of the RemoteTunes receiver while it's connected to the iPod.

Advanced Low Power Mode (ALPM):

RemoteTunes uses an advanced power down mode which minimises current draw on your iPod battery if you are not connected to a constant power source. After 20 minutes of sensing no music playing or no remote commands being sent, the RemoteTunes goes into a battery saving mode. The RemoteTunes receiver will automatically re-power itself when it detects music playing or when a remote button is pressed for more than 0.6 seconds.

Remote Control Function

Rewind: Press and release this button to move to the previous track. Press and HOLD this button to rewind through the track.

Warranty

Targus warrants this product to be free from defects in materials and workmanship for one years. If your Targus accessory is found to be defective within that time, we will promptly repair or replace it. This warranty does not cover accidental damage, wear and tear, or consequential or incidental loss. Under no conditions is Targus liable for loss of, or damage to a computer; nor loss of, or damage to, programs, records, or data; nor any consequential or incidental damages, even if Targus has been informed of their possibility. This warranty does not affect your statutory rights.

Regulatory Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

Tested to Comply

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not authorized by the party responsible for compliance could void the user's authority to operate this product

Declaration of Conformity

Hereby, Targus Group International, declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.
