Request for Confidentiality

Date: 5th February 2013

Subject: Confidentiality Request for FCC ID QO6Nemesis01

Pursuant to FCC 47 CRF 0.457(d) and 0.459 and IC RSP-100, Section 10, the applicant requests that a part of the subject FCC application be held confidential.

Type of Confidentiality Requested		Exhibit
☐ Short Term	☒ Permanent	Block Diagrams
☐ Short Term	☐ Permanent* ¹	External Photos
		Internal Photos
		Operation Description/Theory of Operation
	☒ Permanent	Parts List & Placement/BOM
	☐ Permanent	Tune-Up Procedure
☐ Short Term	☒ Permanent	Schematics
☐ Short Term		Test Setup Photos
		User's Manual

*¹Note: The physical PCB layouts and ease of critical component identification would give competitors commercially beneficial information.

Pulsar Process Measurement Ltd. has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

Short-Term Confidentiality:

N/A.

¹ - The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

ACB-Form-FCC-Application-Pulsar.doc

NOTE for Industry Canada Applications:

The applicant understands that until such time that IC distinguishes between Short Term and Permanent Confidentiality, either type of marked exhibit above will simply be marked Confidential when submitted to IC.

Sincerely,

By:

Electronics engineer
