| <p><b>Solder<br/>Board-Component<br/>View 3</b></p> |  A photograph of a rectangular silver battery component mounted on a yellow PCB. The battery is oriented vertically. It has two small circular terminals at the top, marked with a '+' on the left and a '-' on the right. A USB port is located at the bottom. The battery is placed next to a black ruler with white markings, showing a scale from 0 to 70 mm. The background is a blue textured surface. The battery has the following text printed on it: 502025, 0.74Wh, 3.7V, +200mAh, 2203. |
| <p><b>Solder<br/>Board-Component<br/>View 4</b></p> |  A photograph of the same battery component from a different angle. The battery is oriented horizontally. The USB port is on the right side. The battery has the following text printed on it: 502025, 0.74Wh, 3.7V, +200mAh, 2203. The background is a blue textured surface.                                                                                                                                                                                                                     |
