Midvale, Utah 84047

Affirm

We got the FCC ID certificate and report for Messenger-I-ID6BSF-*** (FCC ID: QTG-ZKSM28) in Apr. 2017.

Messenger-I-ID6BSF-*** is the model number of the test product in the original report. We want to add to models ZKB105MFN17, ZKB97FCB17 in the FCC ID Report.

ZKB105MFN17, ZKB97FCB17 is consistent with the Messenger-I-ID6BSF-*** circuit, only upgrade the size and design. Please review the differences as below.

First, let's look at the difference between the first new model and the original test product.

1. ZKB105MFN17: Size is 26cm*19.7cm*2.15cm.

Messenger-I-ID6BSF-***: size is 25.5cm*19.3cm*2.4cm.

2. The camera hole is different for different iPad. Please refer to below pictures.

Messenger-I-ID6BSF-***

The difference between the new two models and the original model is so much above, only upgrade the size and design. The circuit inside is the exact same.

These two new models, we want to use the original FCC ID: QTG-ZKSM28 but can't find these two models in the FCC official website. So please help to update the FCC report on the FCC official website to add these two new models ZKB105MFN17 and ZKB97FCB17. Thank you.

A handwritten signature in black ink, appearing to read "Dan Oakeson". The signature is fluid and cursive, with a large initial "D".
