

Radio Control

Wild Runner

USER MANUAL

QUICK TIPS

1. When your vehicle starts to lose power, it may lose functions of performance. It's them for fresh battery.
2. Your vehicle's running time may change depending on your driving style.
3. Radio interference can make your vehicle run badly. interference can be caused by other R/C vehicles running on the same frequency, electrical wires, large buildings; or CB radios. Try to stay away from these!
4. Point your transmitter antenna up-not down toward your vehicle. If your vehicle gets too far away, it won't work properly.
5. Don't drive your vehicle in sand or through water or snow.

5. Don't store your vehicle your near heat or in direct sunlight. Always turn switches OFF and remove all batteries storage.

Modifications not authorized by the manufacturer may void users authority to operate this device

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
