UNICORN BUBBLE CAR

TG1029

2.4GHz Remote control

PLEASE READ THIS INSTRUCTION MANUAL CAREFULLY BEFORE USE.

The materials, specifications, parts and packaging mentioned in this manual are for reference purposes only. We are not responsible for any changes made to this printed material, nor are we able to inform customers of any updates or changes. Please refer to our website: R3VOLT.COM for the latest information.

Important Safety Information

Thank you for purchasing a REVOLT product. To ensure safe operation of your vehicle, please review the following guidelines:

Before First Use
Read the manual thoroughly and store it securely for future reference.

Safety Guidelines
*Keep small accessories out of children's reach.
*Do not store batteries in high-temperature environments (e.g., near open flames or heating devices).
*Children must operate the vehicle under adult supervision. Always keep the vehicle within the driver's/instructor's line of sight.

⚠ **Bubble Function Warning:**
Avoid continuous bubble spraying in a single area to prevent creating a slippery surface!

Battery Safety
*Do not charge non-rechargeable batteries.
*Ensure correct polarity when installing/replacing batteries.
*Do not mix old and new batteries or different battery types.
*Never short-circuit the battery terminals.
*For prolonged storage (>10 days), discharge the battery to 40%-50% capacity (e.g., if fully charged, operate until reaching half of total driving time). This optimizes battery lifespan.

Charging & Maintenance
*Only use the provided charging cable.
*Disconnect the charging cable from the vehicle before cleaning.
* Regularly inspect cables, connectors and accessories for damage. Discontinue use immediately if damage detected.
* Power off the vehicle and remove remote control batteries after use.

Storage & Handling
*This packaging and instruction manual contains important information and should be kept in a safe place for future reference.
*Never submerge the product in water.

Low Battery Protocol
When the cars indicator lights flash or the Car stops, recharge immediately.

About this product

Specifications

Remote controlled vehicle

Weight	430g
Dimensions	19x13x16cm
Remote control range	15-20 meters
Charging time	about 140 mins
Operating time	15-20 mins
Battery	3.7V 500mAh rechargeable battery (included)

Remote control

Operating frequency	2.4 GHz
Battery Requirements	2xAA 1.5V batteries (not included)

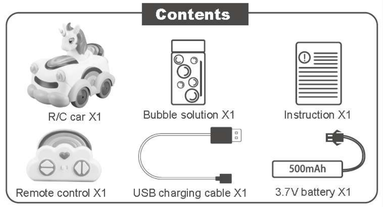

DISMANTLING THE TRY-ME

1. Remove the car and "TRY ME" device from the packaging

2. Remove the TRY-ME cable from the car"

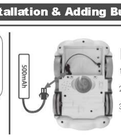

Contents

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the users authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This□equipment generates, uses and can radiate radio frequency energy and, if not/installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by□turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with FCC radiation exposure limits set forth for general population (uncontrolled exposure). This device must not be connected or operating in conjunction with any other antenna or transmitter.

Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
