Subject TW1 FCC ID label QVNTW1 location

Dear FCC reviewer,

We, Euro Communication Equipements sas would like to ask permission to print the FCC ID in the user manual and on the charger case included with the TW1 set, because there is no flat area with enough space to print a readable FCC ID directly on the earphones of the TW1.

At the time of purchase, users will see the FCC ID on the charger case and in user manual.

Best regards,

Michel Bostvironnois,
CEO
