ATCB 1. Please note that the parts list is not listed on the request for confidentiality. Please note that this means the parts list will be public view. If the parts list as well as the tune up procedure is to be confidential, please provide another request for confidentiality including the parts list.

Reply 1: List of active devices have been added to the requests for confidentiality. The following files have been uploaded to the ATCB server

E13b_QVVRM-153_confidentiality_request_p15c_v2.pdf

E13a_QVVRM-153_confidentiality_request_p24c_v2.pdf

ATCB 2. Please note that the 731 shows only GSM and BT and that the front end components of the WLAN and WCDMA have been left out of the RM-153. Please explain why the WLAN SAR data is in the SAR report (see pages 32-35 and 42 of the SAR report). If the WLAN is disabled then this data is of no use and needs to be removed as it is irrelevant to the application. If the WLAN is active in the device then the device may have to be certified by the FCC. Please explain and revise all documents in the application as necessary.

Reply 2: WLAN is disabled in QVVRM-153. Therefore the following documents have been revised (WLAN information removed) and uploaded to ATCB server:

E11_QVVRM-153_report_sar_v2.pdf

E05_QVVRM-153_schematics_all_v2.pdf

E05_QVVRM-153_schematics_BT_v2.pdf

E06_QVVRM-55_report_part_15c_v2.pdf

E12b_QVVRM-153_theory of_BT_operation_v2.pdf

ATCB-Form-RSP-100_RM-55_v2.pdf

Please remove the test report "E06_QVVRM-55_report_part_15c_radiated.pdf", as it does not belong to the QVVRM-153 application.

ACTB 3. Please note that while it appears you have provided EU SAR information, you have not provided the required US/Canada SAR information in the manual. Please provide a revised manual with the appropriate US SAR information.

Reply 3: US/Canda SAR information has been added to the manual and uploaded to ATCB server. See page 7 and 8 in file

E08_QVVRM-153_UG_english_parts_v2.pdf

ATCB 4. Please note that as this is also a part 15C device, certain part 15 statements are required to be in the manual. Please provide a manual containing the appropriate non-modification statement as specified in 15.21.

Reply 4: Non-modification statement as specified in 15.21 has been added to the manual and uploaded to ATCB server. See page 5 in file
