

Single Modular approval Declaration letter

We, [Empower Tribe Commercial FZE](#) applies single modular approval for

Product Name: [Bluetooth Module](#)

Model: [JS-BTM235E](#)

FCC ID: [QWH-BTM235E](#)

According to 996369 D01 Module Certification Guide v04r02 and 15.212 requirement:

1) The radio elements of the modular transmitter must have their own shielding. The physical crystal and tuning capacitors may be located external to the shielded radio elements;

Answer: [Yes, shielded.](#)

2) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation;

Answer: [Yes; All inputs to the modules are buffered through logic or microprocessor inputs.](#)

3) The modular transmitter must have its own power supply regulation;

Answer: [Yes; A low drop out regulator is used for modular power supply regulation.](#)

4) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c). The antenna must either be permanently attached or employ a “unique” antenna coupler (at all connections between the module and the antenna, including the cable);

Answer: [Yes; Device is equipped with PCB antenna.](#)

(5) The module must demonstrate compliance in a stand-alone configuration;

Answer: [Yes, distance between modular and all AEs are bigger than 10cm, refer to setup photo.](#)

(6) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number (See KDB Publication 784748 about labeling requirements);

Answer: [Yes; The modular has a permanent fixed label.](#)

(7) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements;

Answer: [Yes; The module comply with all specific rules applicable to the transmitter](#)

including all the conditions provided in the integration instructions by the grantee,
Refer to test report and user manual .

(8) The module must comply with RF exposure requirements.

Answer: Yes; Transmitter meets MPE calculation of 47 CFR 1.1307 . Refer to MPE Reports and Refer to modular installation manual.

Please contact me if you have any further questions. Thanks for your attention.

Best Regards,
