

# Smart Talking Truck

This toy is to be assembled by an adult. Assembly instructions.

Ref: 8226

## How to play :

- (1) Remove the "Pull Tag" from the chassis.
- (2) Cut away the yellow string which is attached with the green car.
- (3) Press : Truck engine sound.
- (4) Press : Learn how to count number of cars.
- (5) Press : Listen to the four different car sounds.
- (6) Press : Learn how to study the four different colors of the cars.
- (7) Press : for Quiz mode. Follow the instruction to park the car on the parking ramp.

## Remarks:

The proper functions will perform well and accurately under the following conditions:

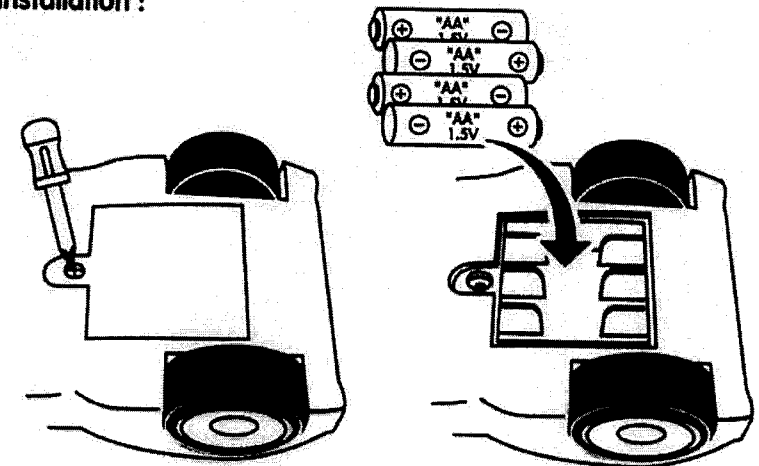

- (a) When removing a car from the truck, wait until the sentence is spoken before replacing it to obtain the next sentence.
- (b) The car should be placed correctly on their slots
- (c) If the truck stops recognizing the cars or recognizes incorrectly, please replace the batteries.

## Instructions :

- Batteries should be installed and changed by an adult.
- Open the battery compartment with a screw-driver
- Make sure the batteries are installed in the right direction according to the diagram. A wrong position can damage the toy, provoke fire or the batteries explosion.
- Close the lid of the battery compartment
- Always change all the batteries. Do not mix used and new batteries.
- Do not store batteries with metal objects: fire or explosion hazard.
- Remove batteries when the toy is not used for a long period of time.
- Do not throw batteries in a fire.
- Do not attempt to recharge batteries which are not rechargeable.
- Do not attempt to open batteries or rechargeable batteries.
- In case a battery is swallowed consult immediately the doctor or a poison center.
- If available get rid of your used batteries through a collection center.
- Use preferably alkaline batteries.
- Never let button-cell batteries in reach of young children.
- Rechargeable batteries are only to be charged under adult supervision.
- Rechargeable batteries are to be removed from the toy before being charged.
- Only batteries of the same or equivalent type as recommended are to be used.
- Exhausted batteries are to be removed from the toy.
- The supply terminals are not to be short-circuited.
- Different types of batteries or new and used batteries are not mixed.
- In case of malfunction, open the battery compartment, remove the batteries, re-install them and close the battery compartment.

## Battery Installation :

- (1) Use a cross shape screwdriver to remove the screw attaching the battery lid.
- (2) Slide the lid to the side and remove.
- (3) Install 4 "AA" size 1.5V batteries. Make sure that the + and - poles are positioned properly.
- (4) Replace the battery compartment lid and screw in.

EA

Appendix 3

**FCC ID: QWS 8226 User Manual**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- ☐ Consult the dealer or an experienced radio/TV technician for help.
