

AP460e

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular and features a large black integrated circuit (IC) in the center, a transformer with a copper-colored core, and several capacitors. There are also smaller components like resistors and diodes. The board is placed next to a ruler for scale, showing measurements in centimeters. The ruler is marked from 0 to 100 cm. The board has a white label with a barcode and some text. The components are mounted on the green PCB, which has various traces and pads. The board is shown from a top-down perspective.
