

Permissive Change Request Letter

Date: August 4, 2026

**Federal Communications Commission
Authorization and Evaluation Division**

7435 Oakland Mills Rd
Columbia MD 21046-1609

Subject: Description of Permissive Change

To whom it may concern,

Pursuant to CFR 2.1043, Extreme Networks, Inc., hereby requests a Class II Permissive Change for the following-referenced equipment.:

FCC ID: QXO-AP5022 (Original Grant Date: 06/04/2026)

This application is a Class II Permissive Change for model AP5022FX under equipment class 6SD. The original certification supports external antennas Antenna 1 and Antenna 3 for Radio 1 and Radio 3 under 6SD operation.

This permissive change request is to add an additional external antenna, Antenna 2, to be supported under equipment class 6SD for both Radio 1 and Radio 3.

There are no changes to the RF circuitry, hardware design, or existing antenna structure. This change only enables an additional antenna option for the certified configuration.

We confirm that this permissive change does not affect, alter, or compromise the AFC test harness, nor does it impact any previously submitted geolocation information. All related mechanisms remain fully compliant and unchanged. The software and firmware remain unchanged, and the device will continue to operate within the original certified parameters.

Sincerely yours,

Applicant : Extreme Networks, Inc.
Address : 2121 RDU Center Drive, Morrisville, North Carolina 27560 United States
