Safety & General info.

**IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION.
READ THIS INFORMATION BEFORE USING YOUR PHONE.**

Interference statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Modification statement:

The FCC requires the user to be notified that any changes or modifications made to this device that are not expressly approved by PrimeNet Co., Ltd. may void the user's authority to operate the equipment.

Wireless notice

This product emits radio frequency energy, but the radiated output power of this device is far below the FCC radio frequency exposure limits. Nevertheless, the device should be used in such a manner that the potential for human contact with the antenna during normal operation is minimized.

Safety & General info.

Facilities

When instructed to do so, turn off your headset when on board an aircraft. Any use of the headset must be in accordance with applicable regulations per airline crew instructions.

Medical Devices

Pacemakers

The Health Industry Manufacturers Association recommends that a minimum separation of 15 centimeters (six inches) be maintained between a handheld wireless device and a pacemaker.

These recommendations are consistent with the independent research by, and recommendations of , Wireless Technology Research.

Persons with pacemakers should:

- * ALWAYS keep the phone and Bluetooth™ headset more than 15 centimeters (six inches) from your pacemaker when the phone is turned ON.
- * NOT carry the phone and Bluetooth™ headset in the breast pocket.
- * Turn OFF the phone and headset immediately if you have any reason to suspect that interference is taking place.

Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you May want to consult with your hearing aid manufacturer to discuss alternatives.

Simultaneous use of a CIC-hearing aid and the Bluefire™ headset is not possible due to lack of space in the ear.

Safety & General info.

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to Determine if it is adequately shielded from RF energy. Your physician may be able to assist you in obtaining This information

FCC Notice to Users

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful Interference in a residential installation. This equipment generates, uses and can radiate radio frequency Energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and the receiver.
- * Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.

Introduction

What Is Bluetooth™ Wireless Technology?

Bluetooth™ wireless technology propels you into a new dimension in connectivity, Bluetooth™ devices Communicate without wires, using built – in radio transceivers that operate on a globally available radio frequency to ensure worldwide compatibility. Your Bluetooth™ Wireless Headset can communicate with other Bluetooth™ devices within a range of approximately 10 meters (33 feet).

How Can I Use My Bluetooth™ Wireless Headset?

The Bluetooth™ Wireless Headset lets you connect with another Bluetooth™ device supporting the headset profile

- * Use your phone hands-free
- * Handle incoming and outgoing calls with the headset multifunction control buttons.
- * Use voice activation to make calls.

What Is Included in This Kit?

This package includes the following:

- * Bluetooth™ headset – Bluefire™
- * Bluefire™ – user's guide
- * AC/DC Adapter
- * Headset necklace
- * Cigar Jack Adapter (Optional)
