

Inspection marks and declarations of conformity

Statement of Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To comply with the FCC RF exposure compliance requirements, the device must be installed to provide a separation distance of at least 20cm from all persons.

Canadian market only

This device complies with ISSED Canada's license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and

2. this device must accept any interference received, including interference that may cause undesired operation.

This Class B digital apparatus complies with Canadian ICES-003.

CAN ICES-3 (B)/NMB-3(B)

Declaration on exposure to radiation:

This equipment conforms with the IC limits of exposure to radiation drawn up for a non-controlled environment. This equipment should be installed and used with a minimum 20cm distance between the source of radiation and your body.

Installing electrical equipment

WARNING

Do not install business or private equipment if the equipment impedes the driver's control of the vehicle.

Caution

Bentley Motors does not accept responsibility for non-approved equipment. Before installing equipment, contact an approved Bentley retailer.

Do not modify the electrical system when fitting equipment. If the electrical system requires modification, contact an approved Bentley retailer. Bentley Motors does not take responsibility for damage caused by un-approved equipment installation.

Electrical equipment that has been installed incorrectly can cause other vehicle systems to fail.
