Professional Installation Attestation

We, Elster hereby declare that requirements of KDB 353028 D01 Antennas Part 15 Transmitters v01 have been met and shown on the following questions. Further we declare that the info listed below are correct and represent the product in consideration under this filing.

1. Professional installation must be justified.
   Description: Device is an electric watt hour meter and requires specially trained professional in configuring and installing the product, more details please refer to user manual exhibit.

2. Professional installation does not permit use of any antenna with the transmitter; the permitted types of antenna specified as below.
   Description: Below list of Antennas has been tested for compliance with FCC Rule Part 15 requirements, for more details please refer to test reports.
   - PCTEL model MFB9153
   - Laird models TRA9023P, TRAB9023P, TRA9023NP, TRAB9023NP

3. The applicant should address the following items when justifying professional installation.
(1) To qualify for professional installation, please explain why the hardware is not readily available to average consumer.
   Description: Due to this product will not be sold directly to the general public through retail store or by mail order, therefore the hardware is not readily available to consumers.

(2) Marketing — Applicant must ensure device cannot be sold via retail to the general public or by mail order.
   Description: This product will not be sold directly to the general public through retail store or mail order. It will be sold to utility companies only.

(3) Applicant must show that device intended use is not for consumers and general public.
   Description: Device is sold only to electric utility companies. It is not available for purchase through retail stores or by mail order.

(4) Explain what is unique, sophisticated, complex, or specialized about the equipment that REQUIRES it to be installed by a professional installer?

Description: Please be advised that due to the unique Market and function targeted by this product, this product will need special trained professional in selecting the proper antenna location to satisfy the relevant rule requirements. We hereby declare that the product will be sold only to electric utilities, which have specially trained technicians, or will contract to specially trained installation companies, to install this product and will not be sold directly to the general public through retail store or mail order.

4. Other professional installation requirements

(1) Installation must be controlled.

Description: The product will be sold only to electric utilities, which have specially trained technicians, or will contract to specially trained installation companies, to install this product.

(2) Installed by licensed professionals.

Description: Device sold only to electric utilities, which have specially trained technicians, or will contract to specially trained installation companies to configure and install the product.

(3) Installation requires special training.

Description: Device sold only to electric utilities, which have specially trained technicians, or will contract to specially trained installation companies to configure and install the product.

If you should have any question(s) regarding this declaration, please don't hesitate to contact us. Thank you.
