

To Whom It May Concern:

Subject: IEEE 802.11 b/g/n features Supported in Pendant

WE, Embedded Wireless Labs Sdn Bhd,
Address: 702, Level 7, Uptown 2,
2, Jalan SS21/37, Damansara Uptown
Petaling Jaya, 47400, Selangor, Malaysia

This is to confirm that the MIMO feature of IEEE 802.11 n is not supported in mPERS Pendant and is not available to the user by using the following techniques:

1. WLAN module TIWI-BLE [FCC ID: TFB-TIWI1-01] does not support MIMO feature
2. Only one antenna can be connected at any point of time on the U.FL connector provided on WLAN module
