13. DC power port

Operation instructions

Power on/off

Slide the power switch up or down.

Input selection

Bluetooth input is default when turning on the device for the first time.

Short press the volume knob to switch between different inputs with the indicator light color changing once. When turning on again, it will remember the input state as the last time it was turned off.

Volume adjustment

Rotate the volume knob clockwise to increase the volume; rotate it anticlockwise to decrease the volume.

Gain adjustment

Treble adjustment: Rotate the treble adjustment knob clockwise to enhance treble; rotate it anticlockwise to reduce treble.

Bass adjustment: Rotate the bass adjustment knob clockwise to enhance bass; rotate it anticlockwise to reduce bass.

Bluetooth function

Bluetooth connection: When the LEVEL 1 is in Bluetooth input mode, the indicator light flashes red and blue alternately, meaning it is in the pairing state. Search JadeAudio LEVEL 1 on the connecting device and connect it successfully, and the RGB light will display the corresponding light effect based on the connected codec.

Clear pairing: In Bluetooth state, hold the volume knob to clear pairing records.

Indicator light introduction

Light effect corresponding to inputs

USB input: Orange

AUX input: Green

COAX input: Yellow

Bluetooth input: In pairing state, the indicator light flashes red and blue alternately. After connecting successfully, the indicator light displays the corresponding light color based on the connected codec.

Indicator light effects of different Bluetooth codecs

SBC: Blue

AAC: Cyan

LDAC: White

Product Name: Hi-Res Audio Power Amplifier

Product Model: F5001L

Rated Input: DC 24~53V

Manufactured by FIIO

Made in China FCC ID:R56-FC5001

Notes and precautions

*Please charge the battery on a regular basis to avoid any damage if it has not been used for a long time.

*Please adjust the volume to a suitable level before using this product so as to protect your hearing.

*Please keep the device away from liquids to avoid any damage to it.

*Please do not use or place the device in circumstances of excessive high/low temperatures (above 45°C or below 0°C).

*Please do not replace with an incorrect battery pack model to avoid the risk of fire or explosion.

*Please do not disassemble or repair this product yourself to prevent damage.

*Please do not strike, squeeze, or puncture the product to avoid damaging the internal circuitry.

Due to continuous improvement, each specification and design is subject to change at any time without further notice.

FCC NOTICE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radiocommunications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected,
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator and your body.
