

A white line drawing on a teal background showing a pair of earbuds inside their charging case. The earbuds are positioned at the top, facing outwards. The case has two compartments, each with a small circular indicator light. The drawing is minimalist, using only outlines to represent the device.

The diagram illustrates the components included in the G07 package. On the left, a charging case is shown open, revealing two earbuds inside. Below it, a Type-C charging cable is depicted. On the right, three pairs of earbuds are shown, each pair consisting of a small earbud and a larger charging case. Below these, a blue box contains the text 'G07 USER MANUAL' and 'Full Version Manual'.

(MFB)
Touch Panel

The diagram shows two earbuds with a vertical touch panel on the side of each. A bracket connects the two touch panels to the text "(MFB) Touch Panel".

Note: The left earbud marked with L is worn in the left ear, and the right earbud marked with R is worn in the right ear.

Open cover to power on

Put earbuds in to power off

Touch to turn off

Single Mode

When on dual mode, put one earbud into the charging case.
Only take one earbud out of the charging case and connect it.

1. Turn off mobile phone's Bluetooth, earbuds will enter the pairing mode and can pair with other devices.
2. If the connection range is exceeded, the earbuds will enter the back connection mode. No connection within 5 minutes, the earbuds will turn off

Remove G07 Earbuds records

Tap L&R 5 times simultaneously

Put earbuds into charging case

FCC ID: RSB-G07
FCC Compliance:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and
2) This device must accept any interference received, including interference that may cause undesired operation.

◆ **15.105 Information to the user.**
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ◆ Reorient or relocate the receiving antenna.
- ◆ Increase the separation between the equipment and receiver.
- ◆ Connect the equipment to a power outlet on a circuit different from that to which the receiver is connected.
- ◆ Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Exposure Warning Statement:
This equipment complies with FCC radiation exposure limits set forth for unlicensed mobile environment. This equipment can be used in portable or stationary conditions.
