

Declaration Letter of Model Difference

Date: 2026-05-07
FCC ID: R5XMDR742
Tested Model Number: MDR-742GW-1(NA)
Adding Model Number(s): MDR-742GW-2(NA), MDR-742GW-4(NA), MDR-742GW-SD(NA),
MDR-742GW-XX(XX)(XXX)

All Adding Model Number(s) is/are same electrically identical as Tested Model Number.
All model variants are built upon a unified hardware platform and RF architecture, sharing identical Bluetooth/Wi-Fi modules, antenna systems, and core circuitry. All models are equipped with both an internal storage caddy and an SD card slot for expandable storage; the only difference across the series is the pre-installed internal storage configuration at shipment:

- MDR-742GW-1(NA): Equipped with a 1 TB internal solid-state drive (SSD) (Main test model)
- MDR-742GW-2(NA): Equipped with a 2 TB internal SSD
- MDR-742GW-4(NA): Equipped with a 4 TB internal SSD
- MDR-742GW-SD(NA): Supports expandable storage via SD card interface
- MDR-742GW-XX(XX)(XXX): Equipped with different storage option

Where "X" can represent represents an alphanumeric character ranging from 0–9 or a–z.

Represents different sales regions and customer codes.

Variations do not affect the devices' RF performance characteristics or regulatory compliance.
Testing has been conducted on a representative sample unit; results are therefore applicable to and fully cover all model variants within this product family.

Yours Sincerely,
