Re: FCC ID: R7PEC6R1S3

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model GPR2 for certification under FCC Part 15.247.

The GPR2 is a battery-powered 2-way gas frequency hopping module that operates in the frequency range of 902 – 928 MHz. The GPR2 is designed to provide two-way communications within the Landis+Gyr Gridstream RF network, and can communicate with electric meters, routers, mesh extenders or radios on distribution automation devices.

The GPR2 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
