Re: FCC ID: R7PEG1R1S5

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model G5 26-1905 for certification under FCC Part 15.247.

The G5 26-1905 contains (1) 900 MHz LAN frequency hopping spread spectrum radio and (1) 2.4 GHz direct sequence spread spectrum Zigbee radio. Both the 900 MHz LAN radio and the 2.4 GHz Zigbee radio can transmit simultaneously, therefore radiated inter-modulation products were evaluated.

The G5 26-1905 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
