

S2 EIC Wi-Fi Antenna Peak Gain

Host: Revelo E370

S2 EIC Wi-Fi Channel 6

Radiation patterns: Azimuth cut

Peak radiated power = 19.5 dBm

The measured conducted power delivered to the antenna is 18.5 dBm (802.11b DSSS), as documented in Test Report AT721011134.1C0.

Peak antenna gain = Peak radiated power – conducted power = **19.5-18.5 = +1 dBi**
