Re: FCC ID: R7PNG0R1S5

To Whom It May Concern:

The following application is submitted on behalf of our client, Landis+Gyr Technology, Inc., for evaluation of their model N501 for a C2PC certification under FCC Part 15.247.

C2PC to add a new host board matching network between N501 module and antenna.

I have reviewed the application and supporting documentation and have found them to comply with FCC requirements. I recommend this application for certification.

Yours sincerely
