This user manual provides the product safety information. Before using the phone, please read the Safety Guide carefully. Statement The 'Safety Guide' contains information regarding safety, operation and customer service. Before using the OPPO smartphone, please read all the instructions and the security information below, and keep it for backup. More detailed instructions are kept in this product as an electronic file. Please read the built-in instructions on the OPPO smartphone. For the latest information, please visit http://www.oppo.com. Security information This mobile phone is suitable for working in an environment of 0°C to 35°C. Temperature for storage should be between -20°C and 45°C. Excessively high or low temperatures can affect the use of mobile phones and even damage the mobile phone and battery. When using this mobile phone, please avoid places near telephone, television, radio, and office automation machines. Please charge this mobile phone in an environment between 5°C and 35°C, so as not to reduce battery performance and standby time. If the phone has a flash charging function, it may not be able to enter the flash charging mode when the temperature is below 15°C or over 35°C. The operating system of this product supports official system updates. If the user rooted the ROM system of any third party or modified the system file by cracking, it may lead to security risks of the system. OPPO will not provide any support nor take any responsibility for the final use in these cases.	Battery precautions in use ▶ Please do not weld battery terminals. Otherwise, it may cause battery leakage, overheat, explosion and fire. ▶ Please do not press or pierce the battery with hard objects (for example needle or other sharp objects), to avoid damage, battery leak, overheating or fire. ▶ Battery liquid may be harmful if contacted with skin or clothes, your skin might be hurt. Please immediately wash it with water, or go to hospital at once to seek medical help if necessary. ▶ If there are any abnormalities like high temperature, discoloration, distortion, bulging, leakage, etc. during operation, charging or preservation, please cease to use the device. ▶ Do not expose the battery liquid to eyes. It might cause potential blindness. When happens, wash your eyes immediately or go to the hospital if serious. ▶ Do not disassemble or modify the battery, as it may cause battery leakage, overheating, explosion or fire. ▶ Do not place or use the battery near fire, heater or other high temperature places. Otherwise, it may cause battery leakage, overheat, explosion or fire. ▶ If there is battery leakage or strange smell, please immediately move it from open flame in order to avoid fire or explosion. ▶ Please keep the battery away from moist or wet areas from moisture. Otherwise, it may cause battery overheat, fuming and corrosion. ▶ Do not place the battery directly in sunlight, or other high temperature areas. Otherwise, battery leakage and overheating may make battery performance descend and service life affected. Keep the battery in a well-ventilated area. ▶ Do not use the battery or connect it with a high-voltage power supply, otherwise it may cause a short circuit or burst.
▶ The battery can be charged and discharged hundreds of times at least, but it will eventually wear out. ▶ Do not dispose the battery at household waste. Dispose the battery according to local regulations. ▶ Caution: Risk of explosion if battery is replaced by an incorrect type. Dispose of used batteries according to the instructions. ⚠ Warning: Please do not charge the battery over 12 hours. Other matters of attention ▶ Adapter shall be installed near the equipment and shall be easily accessible. ▶ If any part of the product is cracked or damaged, discontinue use immediately and contact the OPPO Service Center. ▶ ⚠ To prevent possible hearing damage, do not listen at high volume levels for long periods. Waste Electrical and Electronic Equipment (WEEE) This symbol means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, user has the choice to give his product to a competent recycling organization. Proper recycling of your product will protect human health and the environment. ♻️ OPPO Mobiles will seek shared responsibility and cooperation from customers in reducing the environmental impact of their products. 🔌 OPPO Mobiles will comply with all the applicable laws related to WEEE management.	CE certification information (SAR) This device was tested for typical body-worn operations with the back of the handset kept 10.5cm away. To maintain compliance with RF exposure requirements, use accessories that maintain a 0.5cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with RF exposure requirements, and should be avoided. If you are using pacemakers, hearing aid, cochlear implant or other device, please use the phone according to the doctor's advice. EU Declaration of Conformity (DoC) Hereby, Guangdong OPPO Mobile Telecommunications Corp., Ltd declares that this wireless device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.oppo.com/en/certification Notice: Observe national and local regulations where the device is used. This device may be restricted for use, depending on the local network. The operation frequency in 5150-5350MHz of Wi-Fi 5G are restricted to indoor usage only. QR code and warranty labels are damaged and unrecognizable. 2. Others A. External damages(including wear, tear, and scratches) are not entitled to the warranty service; B. Faults caused by the Internet and wireless information service providers (operators) are not covered by the warranty;
3. If any of our products is required to be fixed, you may take it to any warranty shop in our national warranty network. 4. If the product requires repair since water enters the device or it is seriously damaged by human factors, the customer needs to sign the repair agreement form with the OPPO Customer Service Centre firstly. 5. All components, parts and accessories replaced during the warranty period shall become the property of the Company. III: Considerations for Sending the Device for Repair and Collecting it 1. When completing the OPPO Mobile Phone Repair Form, the customer must fill in valid information in clear handwriting as required (name, address, phone number and fault symptoms). 2. The Customer shall collect the mobile phone by presenting the OPPO Mobile Phone Repair Form. In case the Customer loses the Customer Copy, the Customer shall go through the loss reporting procedures with his/her personal ID or valid proof of identity before collecting the mobile phone.	3. Before sending your device for repair, please back up all information and data you have saved on the mobile phone (such as phone numbers, text messages and pictures) before you delete them to prevent loss or damage during the testing and inspection process. In any circumstances, OPPO Customer Service Centre and its staff will not be responsible or obligated to back up or recover your information and data, or accept responsibility for any consequence arising from the loss, damage or leakage of your information and data. Please ensure the legality of the information and data you have saved. To respect your privacy, we will not transmit, backup or examine your information and data (unless they are necessary for us to provide you with services), and we reserve the right to refuse to provide services for illegal content. FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. This device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the handset kept 1.5cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.
