

Internal Photos

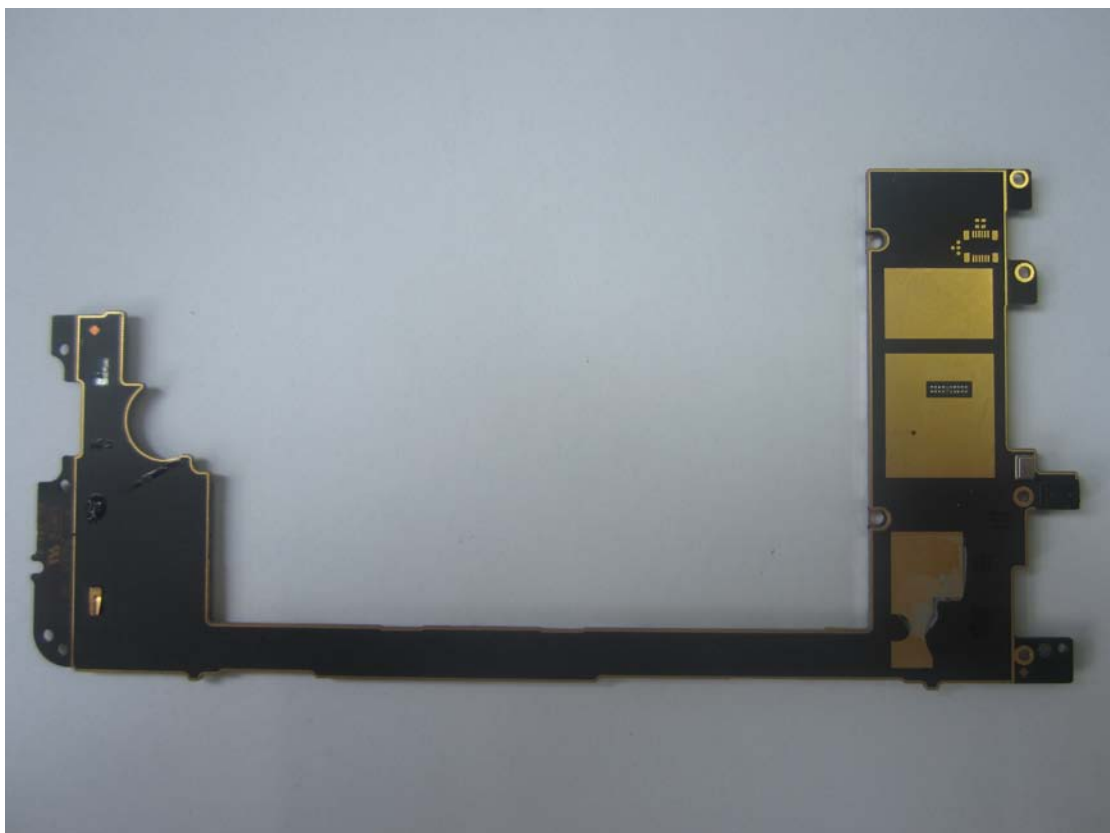

1. EUT uncover view

A photograph of a disassembled smartphone, showing the internal components including the battery, logic board, and camera module, laid out on a light blue surface. The components are arranged in a horizontal line, with the battery on the left, the logic board in the center, and the camera module on the right. The battery is a large, rectangular, silver-colored component. The logic board is a long, thin, black component with various electronic components and connectors. The camera module is a small, rectangular, black component. The background is a light blue surface.
