

TYPE PAD

Full QWERTY Keyboard Attachment

NYKO®

Charge Type Pad prior to use. Can be charged separately or while attached to the with controller.

Power on the Type Pad.

Power on the console & select "Settings" in the console menu.

In the "Settings" menu, select "Devices".

From the "Devices" menu, select "Bluetooth Devices".

Press the Bluetooth sync button to put the Type Pad into discovery mode. The led will blink blue.

The LED will glow red while charging and will turn off when fully charged. If Bluetooth sync button is pressed, the LED will blink blue to indicate the device is discoverable for the sync function.

Wait a few moments and the device "Nyko Type Pad" will show in the device list to select. If not, repeat process. Select Nyko Type Pad from the list.

Once Type Pad is selected and found by the console, a pass key is provided to confirm sync. Type the pass key on the Type Pad then hit ← RETURN

Once properly connected the Type Pad will be listed with a lit up circular icon to indicate that the device is available for use. you are now synced and ready to use your Type Pad.

Nyko Product Limited Warranty:

This Nyko product is warranted to the original purchaser for the product's normal intended use for a period of ninety (90) days from the date of purchase. If a defect covered under this warranty occurs, Nyko will replace or repair the product or its defective parts, at Nyko's option, at no charge. This warranty does not apply to defects resulting from misuse or modification of the product. The product should be returned with proof of purchase, a brief statement of the claimed defect, and the purchaser's contact information, to: Nyko Technologies, Inc., 1990 Westwood Blvd., 3rd Floor, Los Angeles, CA 90025, with freight charges prepaid. Please allow 3-4 weeks for processing.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications

not expressly approved by the party Responsible for compliance could void the user's authority to operate this equipment.

(Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Caution!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

MODIFICATION: Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the device.
