

iXL™ System Federal Communications Commission (FCC) Notice Concerning Interference

The iXL system (both pump and remote controller) complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) These devices may not cause harmful interference, and (2) these devices must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by Insulet could void the user's authority to operate the equipment.

Both iXL pump and remote controller generate, uses, and can radiate radio frequency energy; and may cause harmful interference to radio communications. There are no guarantees that interference will not occur in a particular installation. If iXL system (both pump and remote controller) does cause harmful interference to radio and television reception, the interference may be corrected by one of the following measures:

- Move or relocate the iXL system (both pump and remote controller)
- Increase the distance between the iXL system (both pump and remote controller) and the other device that is emitting or receiving interference.
