RE: Certification Application, Class A Classification
FCC ID: RC9-AH100

To Whom It May Concern:

The purpose of this letter is to provide justification for classifying the above product as a Class A device. The AirFlow Networks, Inc., AirHub Model 100 product is intended for installation only in enterprise environments (i.e. commercial and industrial). Marketing of the products will not be targeted for residential use. The AirHub will not be available for purchase at consumer oriented retail outlets. The users manual includes an FCC statement, which states the Class A certification.

If any further information is required, please do not hesitate to contact me.

Sincerely,

Harry Bims
Chief Technical Officer
AirFlow Networks, Inc.
