COVER LETTER

Dear Sir,

The RXTX8000 system today is the result of an exhaustive amount of working and engineering hours and effort ever since SIDE P was founded in 1984 and therefore, please understand that my company's concern is to have the RXTX8000 system receiving section (i.e. the RX8000) maintained fully confidential.

Our permanent target is to secure the company's know how and the programming section/microprocessor features against unscrupulous competitors and therefore, SIDE P requires full confidentiality for the RX8000 system

Sincerely,

M. Jean-Marc Boutonnet-Tranier
Chairman of the Board to SIDE P Group
