

SOFTWARE SECURITY

2/21/2015

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

DigitalPath, Inc requires this document to be confidential per sections 47 CFR 0.457 and 0.459, due to proprietary information related to software security and descriptions of software formats/upgrade processes. The specific sections would be a problem below giving out some proprietary formatting information in terms of specific binary file layouts and reference to the 2xwireless SDK. This document below will describe the method the software is uploaded to the device. These responses are to FCC document "594280 D02 U-NII Device Security v01r01".

Sincerely,

Brock Eastman, VP Engineering
