Requesting permissive change

To Whom It May Concern:

The purpose of this letter is to request a Class II Permissive change for
FCC ID: **RI7FE910C04WW**, Original grant date: July 14, 2025

The major change filed under this application is :

1. Evaluations have been conducted to ensure compliance with EMC and RF exposure requirements.
2. To increase memory capacity, the MCP was changed from **MEM MCP 2Gb NAND Flash + 2Gb LPDDR2** to **MEM MCP 8Gb NAND Flash + 8Gb LPDDR4X**. Due to the different MCP size, the surrounding passive components have been reorganized.
3. The Tune-Up Procedure document was updated to correct typos that do not affect the RF parameters.
4. The new hardware and firmware version and are designated as follows.

Version	Original	New
Hardware	1.00	1.10
FVIN	M0V.031001	FE910C04-WW: M0V.032001 FE910C04-WWD: M0V.033001

Sincerely,

(Signature)
