To whom it may concern:

Regarding FCC ID: RI7FN920C04WW, Grant Date: 07/09/2025

We hereby request FCC's approval to supersede the existing certification by changing the listed rated power from EIRP to Conducted Power. During the original certification filing, the power type on FCC Form 731 was inadvertently selected as ERP/EIRP instead of Conducted Power. Listing conducted power will allow greater flexibility for future antenna configurations without altering the certified rated power. This approach also minimizes the possibility of administrative errors or misinterpretation.

Best regards,
