CAUTION- ELECTRIC TOY:

Not recommended for children under 8 years of age. As with all electrical products, precautions should be observed during handling and use to reduce the risk of electric shock.

ATTENTION PARENTS:

It is recommended that this toy and all accessories be periodically examined for potential hazards and that any potentially hazardous parts be repaired or replaced.

BATTERY PERFORMANCE NOTE:

For best performance use alkaline batteries (where disposable batteries are called for). Battery life may vary depending on battery brand.

Marketed by Wal-Mart Stores, Inc.

TROUBLESHOOTING

PROBLEM

PROBABLE SOLUTIONS

Car does not move or run slowly

- Make sure power switch on vehicle and transmitter are in the ON position
- Make sure the batteries in the vehicle and transmitter are installed properly and are fresh
- Replace batteries if needed

Car moves erratically or transmitter range is short

- There is radio interference in the area- change locations
- There is another R/C vehicle operating on the same frequency near by- move away from any other vehicle operating on the same frequency
- Make sure antenna in transmitter is fully extended
- Make sure transmitter battery connections are in good condition and replace battery if necessary

Car does not work after going through water or snow

- Allow car to dry thoroughly overnight
- Avoid driving in water or snow

FCC NOTES

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

CAUTION: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

2

SAFETY

- Do not operate during thunderstorms.
 - Avoid water, sand, and snow when operating your vehicle. In addition, do not submerge your vehicle or controller in water.
 - Never operate your vehicle on the street or highway.
 - Never operate your vehicle in a confined or crowded area, and do not use people or animals as obstacles.
 - Do not run your vehicle into furniture, objects or hard surfaces, as this will cause damage to both the objects and the vehicle.
 - Keep fingers, hair, and loose clothing away from the tires, gears, and motor while the vehicle is switched ON.
 - Do not leave vehicle or controller near sources of heat or under direct sunlight for long periods of time.
 - Do not leave vehicle or controller outside overnight- dampness is harmful to interior components.
 - Remove all batteries when not in use to avoid accidental operation.
- Adult supervision is recommended when operating this vehicle.

3

SET-UP

1. Remove the battery cover on the bottom of the transmitter and insert two AA alkaline batteries to battery compartment and replace the battery cover as shown.

2. Remove the battery cover on the bottom of the car. Insert three AAA alkaline batteries into the battery compartment of the car and replace the battery cover as shown.

3. Move the power switch on the car to the "ON" position.

4

START YOUR ENGINES!

1. Place car on smooth, flat surface and extend antenna fully.
2. To move car forward and backward in a straight line, press the left buttons up and down.
3. To turn left or right while moving forward, press the right buttons side to side while pressing the left buttons up.
