Operational Notes

- If the Mp3 player will not be used for a prolonged period of time, please remove the battery to avoid possible damage caused by chemical leakage.
- The Mp3 player should be kept in areas free from extreme temperature changes, moisture and dust.
- Set the HOLD switch to release position before operation.
- Do not drop the player, which may cause battery fall off or damage its surface.
- Battery life may vary with different usage condition, manufacturer and manufacture date.
- Please change the battery under following conditions :
 1. When the Mp3 player displays a "Low Battery" warning and then shut down itself.
 2. All buttons give no response and are not working even after the battery is taken out and reinstalled.
- To avoid static electricity damage, avoid operating the Mp3 player in extremely dry environment whenever possible.
- If the player stops running under proper operation, please reset it by taking out battery.
- Do not use a Mp3 player when riding bicycle or driving .
