

Letter of Attestation

COMPENSER® LTE-MBC-NAR

FCC ID: RK7MBC-NAR

To whom it may concern,

This letter is to confirm that the COMPENSER® LTE-MBC-NAR with FCC ID: RK7MBC-NAR is a wideband and not a provider-specific signal booster. All Network Protection Standard (NPS) requirements as per KDB publication 935210 D03 test procedures are implemented and activated. None of the implemented features is accessible to the end user; they cannot be reconfigured or disabled. The COMPENSER® LTE-MBC-NAR is not user programmable, does not need fine tuning or adjustment. We also confirm that any future software upgrades will not cause noncompliance of the device.
