Page 3 Charging Your Headset  (Fig.1) (Fig.2) The headset comes with a built-in rechargeable battery. Prior to using the headset, it is recommended to charge the battery fully for the first time. ENGLISH	Page 4 ENGLISH Connect the charger to an AC wall outlet and the charger plug to the headset's charging socket (Fig.1). The LED will be red while charging. IMPORTANT Charging indication will be delayed for a few seconds if the headset has not been used for a long time or the battery is drained. Nominal Charging Time: Charging the battery fully is normally within 1 hour. When the battery is fully charged, the LED will turn blue and remain on for 30 minutes. Disconnect the charger from AC wall outlet and the headset. Press and hold the MFB (Fig.2) for 2 seconds to turn the headset on. Please refer to "Turning Your Headset On and Off" on the next page. Talk & Standby Time The fully charged battery offers up to 200 hours talk time and up to 10 hours standby time. When the call icon is on progress, the headset remains turned on in standby mode. Low Battery When the headset is on and the battery becomes low, the LED flashes red and the headset emits a beep every 1 minute. Please recharge the battery as described above. 200 10
Page 5 Turning Your Headset On and Off ENGLISH Turning On the Headset: Press and hold the MFB for 2 seconds until you hear a short beep. The LED will flash blue. IMPORTANT Press the MFB again each time you turn on the headset to maintain pairing in this the connection between the headset and the mobile handset is retained. For pairing, please refer to "Pairing Your Headset" on page 74. Turning Off the Headset: Press and hold the MFB for 3 seconds until you hear a long beep. The LED flash stops.	Page 6 Pairing Your Headset  Prior to using the Headset for the first time, you must pair it with a Bluetooth-enabled mobile handset. The information on the next page describes pairing instructions for a typical Bluetooth-enabled mobile handset. Headset pairing procedures are subject to different models of mobile handsets.

Page 11 Care and Maintenance Headset - Consider turning your headset off before placing it in your pocket or bag. If the BTB is accidentally depressed, your mobile handset may also be unintended. - Do not expose the headset to liquid, moisture or humidity as it is not waterproof. - Do not use abrasive cleaning solvents to clean the headset. - Do not expose the headset to extremely high or low temperatures. - Do not dispose of the headset in a fire as it will result in an explosion. - Do not expose your headset to contact with sharp objects as this will cause scratches and damage. - Do not stick anything inside the headset as this may damage internal components. - Do not attempt to disassemble the headset as it does not contain serviceable components. - If you do not use the headset for long periods, be sure to store it in a dry place, free from extreme temperatures and dust. - Dispose of battery according to local regulations. Do not dispose as household waste.	Page 12 Bulb-on Battery - Do not attempt to replace the headset's battery yourself as it is in-built and is not changeable. - Charge the battery in accordance with the instruction supplied with the set. - Only use the manufacturer supplied charger when charging the headset. Charging - Only use the manufacturer supplied charger when charging the headset. - Do not disconnect the charger as it may expose you to dangerous voltage or other risks. Accidents, especially can cause electric shock when the headset is subsequently used. - Do not use the charger outdoors or in damp areas. - Only charge the headset's bulb-on battery in accordance with the instructions of the user guide. - Avoid charging the headset in extremely high or low temperatures.

Page 13 Safety Information - Check local laws regarding use of a mobile handset and headset while driving. If you use the headset while driving, ensure your attention and focus remains on your responsibility of driving safely. - Never allow children to play with the headset – small parts may be a choking hazard. - Observe all signs that require an electrical device or RF radio product to be switched off in designated areas. These could include hospitals, testing areas, and potentially explosive atmospheres. - Turn off your headset prior to boarding an aircraft. Do not use your headset in an aircraft. - Never mount or store your headset over any air bag deployment area as serious injury may result when an air bag deploys. - Do not open or modify the bulb-on battery.	Page 14 Troubleshooting If you are unable to connect your headset and mobile handset, please try the following: - Ensure your headset is turned on and is properly charged. - Ensure the headset is paired with your mobile handset. - Ensure your mobile handset's Bluetooth feature is activated. Please refer to your mobile handset user guide for specific instructions. - Ensure the headset is within a maximum of 10 meters of your mobile handset(s) and there are no obstructions, such as walls or other electronic devices in between. If the above steps do not resolve your problem, please recharge the headset and remove your mobile handset battery for a while. The Tech City BT Headset is compliant with and adopts the Bluetooth Specification 1.1. However, interoperability between the device and other Bluetooth-enabled products is not guaranteed because it depends on compatibility for more information on the compatibility between the device with other Bluetooth-enabled products, please check with the manufacturer.
