Advanced Bluetooth Car

**Parrot EVOLUTION Life made easier: :
Just turn on the engine. Drive. Talk. It's that simple !**

The Parrot CK3000 Evolution hands-free Car Kit offers the convenience of voice-activated calling and outstanding sound quality by using your car's sound system as a receiver.

It takes less than an hour for your local mechanic to mount the Parrot EVOLUTION box, microphone, keypad. There are no apparent wires. Once installed, just turn on the engine and you are immediately connected to your phone.

Even by leaving the mobile phone in his bag, with his Parrot EVOLUTION, the name and is immediately connected to his correspondent.

The car's speakers transmit the conversation with perfect quality of sound, regardless of driving conditions (traffic, highway...).
