Equipment: Parrot minidrones AIRBORNE CARGO DRONE

Model: AIRBORNE

FCC ID: RKXDELOS1

Sirs,

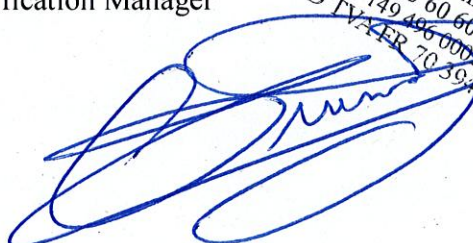

Please find below the answers to three points justifying the location of the label when the label is placed in the battery compartment:

- a. Provide justification such as limited space:
The available label area on the device is limited because it is relatively small.
- b. How the FCC identifier or label will be readily viewable per FCC Rule 2.925:
The batteries are designed for easy removal and the label will be visible whenever the batteries are removed for replacement.
- c. How the FCC identifier or label will be readily viewable at the time of the purchase to comply with Part 2.925 (d) :
The label will be readily visible at the time of purchase because the device will be marketed without the battery installed.

Regards,

31/08/2015
