

EXHIBIT A - FCC ID LABELING AND WARNING STATEMENT

Proposed FCC ID Label and warning statement

FCC ID: RL3-ALTE1000

Warning: this device is a high powered transceiver that operates at frequencies that could be potentially harmful to human tissue if the following precautions are not taken,

(1) Minimum safe operating distance of 1.2 meters must be observed at all times between unit and users*

(2) Unit shall be mounted so that minimum operating distance is not inadvertently impinged by the general public, or non user personnel.

*Please see exposure limits listed in FCC §1.1310

Specifications: Text is black or white in color, left justified, in a font size large enough to be legible without the aid of magnification. Labels shall be “permanently affixed” or silk screened upon the antenna location on the EUT.

FCC Warning Statement

As per FCC 1.1307 (b)

A FCC Warning Statement must be permanently affixed to the antenna portion of the product and provided in the product manual that:

- (1) provides adequate notice regarding potential radiofrequency safety hazards, e.g., information regarding the safe minimum separation distance required between users and transceiver antennas;
- (2) references the applicable FCC-adopted limits for radiofrequency exposure specified in § 1.1310.
