LABLE PLACEMENT
ADHESIVE BACKING

A black handheld device, likely a mobile phone or PDA, is shown from a rear perspective. The device has a rectangular shape with rounded corners. On the back, there is a large rectangular area outlined with a dashed line, indicating where a label should be placed. This area is labeled 'LABLE PLACEMENT ADHESIVE BACKING' with a line pointing to it. The device also features several small circular holes, possibly for screws or ventilation, and some internal components are visible through cutouts on the left side.
