03

How to Use

1.Charging

- Although you can pair with two devices, only one of them can play music with the headset at a time. To pair with two devices:
- 1) Follow previous instructions in the "Pairing" section to pair the "A12" with your first device;
 - 2) Turn off the Bluetooth function of your first device, follow the "Pairing" instructions again to pair and connect to your second device;
 - 3) With Bluetooth function on both devices turned on, simply restart the headset, it will automatically connect with both devices at the same time (within 5 seconds).
 - 4) To switch between the two devices, simply pause the music on the first devices and play music on the second device or vice versa.

▲Note: Charge the headset at least once every 6months when not using for a long time.

2.Pairing

To pair with other Bluetooth device, you must first bring the headset into pairing mode.

- 1) Make sure the headset and your Bluetooth device are next to each other (within 3 feet);
- 2) Press and hold the multifunction button for approximately 3 seconds to turn on the headset;
- 3) Once the headset is on, it will go into pairing mode automatically with the LED indicator flashes red and blue alternately;
- 4) Activate Bluetooth function on your phone and search for the nearby Bluetooth connection;
 - For iPhone : Settings>Bluetooth>On
 - For Android : Settings>Wireless & Networks>Bluetooth: On>Scan for devices;
- 5) Find "A12" in the search results. Tap on the name to connect. Once connected, only the blue LED will remain on.

▲Note:

- If a PIN code is required for pairing, please try "0000" or "8888" (4 zeros or 4 eights)
- The Bluetooth headset can remember previous paired devices. If you have previously paired the headset with a device, simply turn on your device and the headset (by pressing the multifunction button for 3 seconds), they will connect automatically with no need to go into pairing mode.

04

3.Pairing with two devices at the same time

Although you can pair with two devices, only one of them can play music with the headset at a time. To pair with two devices:

- 1) Follow previous instructions in the "Pairing" section to pair the "A12" with your first device;
- 2) Turn off the Bluetooth function of your first device, follow the "Pairing" instructions again to pair and connect to your second device;
- 3) With Bluetooth function on both devices turned on, simply restart the headset, it will automatically connect with both devices at the same time (within 5 seconds).
- 4) To switch between the two devices, simply pause the music on the first devices and play music on the second device or vice versa.

▲Note:

- Please note the "L" and "R" markings on the headset, they correspond to left side and right side respectively;
- In addition to the headset, two pairs of different size ear buds are included in the package. Please try them out and find the most comfortable fit for you.

05

Trouble shooting

Q: My headset will not switch on.

A: Please recharge it and make sure it has enough power. Plug the unit to a charger and see if the power button becomes solid red.

Q: Why can't I pair this headset with other Bluetooth devices?

A: Please check the following points:

- Make sure your Bluetooth devices support A2DP profile;
- Make sure the headset and your device are next to each other or within 3 feet;
- You must get the headset into pairing mode with indicator flashing red and blue alternately;
- Try to reboot your Bluetooth device if it is playing music.

Q: After connecting and pairing with my Bluetooth device, I cannot hear any music from the headset.

A: Please check the following:

- Your sound system is connected to the headset (If LED indicator flashes blue once every 5 seconds then you are connected);
- Make sure the music volume is at audible level on both your Bluetooth device and headset;
- Make sure your Bluetooth device is playing music.

Care and Maintenance

- Keep the headset away from heat and humidity;
- Do not put the product under direct sunlight or hot areas. High temperatures will shorten the lifespan of the headset and its battery;
- Do not try to take the product apart;
- Do not use chemicals or detergents to clean the product;
- Do not scrape the surface with sharp objects.

Bluetooth Earphone
Model No.:A12

Internal Battery: 3.7Vdc

Input: 5 Vdc

FCC ID: RMZ-A12

Richen Industrial Co., Ltd.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
