Modular Approval Request

FCC ID: RNH-TOP8812BU

The following attestation addresses the requirements to support modular approval:

Modular approval requirement	Yes (provide brief statement)	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	The module is covered metal shield.	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	All inputs to the modules are buffered through logic or microprocessor inputs.	
(c) The module must contain power supply regulation on the module	Power supply regulation built into module.	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	The module has the PCB antenna. Please refer to Antenna report.	
(e) The module must demonstrate compliance in a stand-alone configuration	Please refer to test report and setup photo.	
(f) The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	Please see the label file.	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements	Please refer to user manual.

Tel: +82-31-779-7742 Fax: +82-31-784-8899

Modular approval requirement	Yes (provide brief statement)	No *
(h) The module must comply with RF exposure requirements	It complies with RF exposure requirement.	

* Please provide a detailed explanation if the answer is "No."

Sincerely,

Signed:
