

Dated: January 27, 2026

**Nemko North America, Inc.**  
303 River Road, Ottawa, ON K1V 1H2 Canada  
Attn: Director of Certification

**Family Certification request letter - FCC**

**FCC ID:** ROR2003

**Model numbers:** PCW-400, PWRF-400, PC—400, PCRF--400

We, BLINQ Networks Inc., hereby request certification for a product family under a single application and FCC ID. The base model and its variants share the same core design and technical characteristics, with only minor differences that do not affect compliance with FCC requirements.

Details of the product family are as follows:

Base Model: PCW-400

Variant Models: PC-400, PWRF-400, PCRF-400

**Justification:**

All models listed above are electrically and mechanically identical, and share the same antenna type and gain, with variations limited to removal of Wifi module (PC-400 and PCRF400) and/or removal of internal antennas (PWRF400 and PCRF400) These differences do not impact RF performance or compliance with applicable regulations. The test results obtained for base model within this family can be applied to all other model variants, considering their similarities

We respectfully request that these models be certified under a single application to streamline the approval process and ensure consistent regulatory compliance.

Should you require any additional information or documentation, please do not hesitate to contact us.

Sincerely,

Signature:

A handwritten signature in black ink, appearing to read "Jim Dickerman", is placed over a light blue rectangular background.
