

FCC Information

Warning! Changes or modifications to this unit not expressly approved by Consumerware could void the FCC authority to operate this equipment. This includes the addition of any external antenna device.

To comply with FCC regulations, the following conditions must be met:

This device complies with Part 68 of the FCC rules

The label on the bottom of this device contains the FCC registration number and ringer equivalence number.

If requested by the telephone company, the FCC registration number of this device and the ringer equivalence number must be reported. For reliable operation, the sum of the ringer equivalence numbers for devices connected to a single telephone line should not exceed five. This device must not be installed on coin operated telephone lines or party lines.

This device complies with Part 15 of the FCC rules

Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

Rights of the telephone company

The FCC has granted the telephone company the right to disconnect service in the event that your phone causes problems on the telephone line. In addition, the telephone company may make changes in facilities and services which may affect the operation of your unit. Your telephone company must give adequate notice in writing prior to such actions to allow you time for making necessary arrangements to continue uninterrupted service.

If you are having trouble with your telephone service, you must first disconnect your phone to determine if it is the cause of your problem. If you determine that it is the cause, you must leave it disconnected until the trouble has been corrected.

Radio interference

Some cordless telephones operate at frequencies that may cause interference to nearby TVs and VCRs. To minimize or prevent such interference, the system base should not be placed near or on top of a TV or VCR. Moving the base farther away from the TV or VCR will often reduce or eliminate the interference.

There is no guarantee that interference will not occur in a particular installation. If this telephone does not cause harmful interference to radio or television reception, which can be determined by turning the system off an on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Increase the separation between base station and receiver.
2. Connect the base station into an outlet on a circuit different from that to which the receiver is connected.
3. Consult the dealer or an experienced radio/TV technician for help.

Repair work on this device must be done by Consumerware, Inc. or an authorized repair station.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and should be installed and operated with a minimum separation distance of 1.18 cm from the back of the phone and the user's body.

Limited Warranty

Important: Evidence of original purchase is required for warranty service

Warranty Term

This limited, non-transferable warranty is provided to the original purchaser. The product is warranted to be free from defects in materials and workmanship under normal installation, use and service for a period of one (1) year from the date of purchase as shown on the purchaser's receipt.

If the unit should prove defective within the warranty period, please call the Consumerware Customer Service Center at 1-800-456-6076 for product return information.

Statement of Remedy

Consumerware's obligation under this warranty is limited to repair or replacement (at Consumerware's option) of the product or any part(s) which are defective provided that the product is returned to Consumerware's Customer Care during the warranty period. A copy of the purchase receipt must accompany products returned. In the absence of a purchase receipt, the warranty period shall be one (1) year from the date of manufacture. Repair or replacement of the product is your sole and exclusive remedy.

If the product is repaired, reconditioned component parts or materials may be used. If the product is replaced, Consumerware may choose to replace it with a new or reconditioned product of the same or similar design. The repaired or replacement product will be warranted for either (a) 90 days or (b) the remainder of the original one (1) year warranty period, whichever is longer. Batteries are warranted to be free from defects at the time of purchase.
