

Attention: Application Examiner

Re: Request for confidentiality

Applicant: Sirius XM Radio LLC

FCC ID: **RS2DRU2-1KW0001, RS2DRU2-250W0001**

To whom it may concern,

Request is hereby submitted by Sirius XM Radio LLC ("Sirius XM") to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Tune up procedure
- Parts list
- Internal photos (only when new technology is involved; requires additional justification)
- User manual (only with added justification, such as professional installation)

Rationale for request for confidentiality: the DRU2 devices developed by Sirius XM are not accessible to the public and installed only in secured locations such as tops of buildings, locked tenant improvement rooms, or locked shelters. Access to the devices is limited to installation and service personnel who are acting under a non-disclosure agreement with Sirius XM

Sirius XM has invested considerable time and materials in research and development to produce the referenced product. Disclosure to competitors of the permanently confidential portions of this application would give them significant competitive advantages in developing similar products and would also disclose successful implementation of unpublished, leading-edge technology developed by Sirius XM.

If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in blue ink, appearing to read "J. Blitz", is positioned above the typed name.

James S. Blitz
Senior Vice President, Regulatory Counsel
Sirius XM Radio LLC
